

Celebrating Frontenac's Diversity

We are proud of the rich ethnic diversity that exists in Frontenac. The recently published 2020 Census gave us a glimpse of this diversity. As we celebrate Frontenac's 75th anniversary since its incorporation as a city, Alderman Mahadevan is interested in recognizing this diversity in an article she is writing for our city newsletter. We may also be displaying flags in the lobby at City Hall showing the countries of the world where our residents hold or have held citizenship. We invite you to share part of your story with us by taking a brief survey (should take two minutes or less). You will not be asked for your name, address or contact information in the survey. We only wish to identify the cities and countries around the world where our residents were born and where they have held citizenship so that our diversity can be recognized. Please click the following link to participate in the survey <https://www.surveymonkey.com/r/GZ85WBD>
