

# CITY OF FRONTENAC

Kate Hatfield  
Mayor

Leesa Ross  
Interim City  
Administrator

November 2024

Greeting's and thank you for stopping by the Geyer Rd Revitalization Project information site.

The City of Frontenac has worked closely with the East-West Gateway Council of Governments and the Missouri Department of Highways to obtain federal grant funding to assist in the financial support of the Geyer Road project for public safety.

MoDOT has advised "concurrence" with the low bidder, PCX Construction for qualification and compliance with federal regulations for the project, due to the federal funding. The project will push through winter as weather allows. The completion should occur in the late spring or early summer.

\*\*As a reminder when waiting to maneuver through a one-lane closed flagmen-controlled sections of roadway, **PLEASE DO NOT BLOCK INTERSECTIONS**. This will assist in keeping traffic moving as much as possible.

This project consists of pedestrian safety with installation of sidewalks along with stormwater improvements and street repaving. The sidewalks will tie into the Clayton Road sidewalk just west of the Clayton and Spoede intersection on the south side of Clayton Road. It will continue westbound to N. Geyer, crossing N. Geyer with a new pedestrian signal. It will then turn south on the west side of Geyer. The sidewalk will continue south to approximately Hermitage Hill Road.

A special thank you to all the property owners along the route for working closely with the City of Frontenac on the project.

Currently Missouri America Water, Spire Energy, and MSD have completed their projects prior to this project starting.

Survey crews will be laying out the project as well as removing some trees and brush per their agreements.

The official start date for construction is **Monday, December 2.**
